

## Literacy Learning Through Inquiry and Play

This interactive workshop will explore how to design and implement engaging, research-based instructional strategies and routines to support a comprehensive literacy program.

We will focus on:

- providing opportunities for playful literacy activities that connect reading, writing, and oral language
- designing literacy activities that allow for meaningful connections to the Core Competencies

*All POPEY workshops include a combination of hands-on activities, modelling and direct teaching, connections, teamwork, reflections, videos, and fun!*
