# Technology workshop with ARC
## (Accessible Resource Centre)

https://www.arc-bc.org/

This workshop will provide you with the opportunity to explore how to use technology to support inclusion in the classroom.

Find out what types of adapted materials you can access via the Arc site. The goal of ARC-BC is to provide BC students with perceptual (or print) disabilities and their educational teams with high quality digital alternate format materials that align with British Columbia's K-12 curriculum.

Please bring your own device if you have one. We will also have iPads and laptops available to use for the session as well.
