Comprehensive Literacy Instruction & the Core Competencies

This workshop will build K-3 educators' expertise by providing practical tools, strategies and routines for designing and implementing a comprehensive literacy program. We will explore how to plan for and integrate varied instructional approaches to support all primary learners in an inclusive classroom environment, as well as provide suggestions for connecting literacy activities to the Core Competencies.

Included will be:

- an overview of effective classroom practice in comprehensive literacy instruction
- routines, strategies, and scheduling considerations for scaffolded instruction and support
- mentor texts and meaningful literacy activities that explicitly engage students with the ELA curriculum and the Core Competencies, including considerations for student reflection and self-assessment

The format of the workshop will include direct instruction, video demonstrations, mentor texts, and active participation.

When:

Friday, May 11, 2018

Workshop Info

Time:

9:00am - 3:00pm

Where:

Learning Services Office/School Board
10112 105th Avenue
