Background on NOIIE

NOIIE is a provincial inquiry-based network of districts in British Columbia. Established in 2000, NOIIE was designed to improve the quality and equity of education in BC through inquiry, teamwork across roles, schools and districts, as well as a focus on applying coaching forms of assessment to assist learners to take greater ownership of their learning. The vision of EVERY learner crossing the stage with dignity, purpose, and options is at the core of inquiries within the group. Schools participate on an annual basis by engaging in the [Spiral of Inquiry](#). School questions, case studies, resources and reflections are shared in a spirit of generosity, curiosity and growth.

How does it work?

- Joining the district NOIIE group provides a process to take on meaningful inquiry within your role as educator with access to inquiry projects & resources from across the province and from other member countries to support the learning journey
- There are three-four meetings throughout the year that guide this process for participants
- Collaboration funds are available to support the inquiry journey throughout the year
- Participants submit an inquiry proposal to NOIIE
- Participants submit a final summary to NOIIE at the end of June 2021
- Sharing of learning session in June (session 3)

Please confirm your attendance and dietary restrictions with michellabraun@prn.bc.ca no later than October 28, 2020. Please contact Charmaine Chretien, Principal Curriculum & Assessment for further information & questions: cchretien@prn.bc.ca or 250.262.6091
