## TRIBES LEARNING COMMUNITY Training: Modules 1 & 2

*“Every school should be a model home, a complete community actively developing future compassionate citizens capable of creating, leading and contributing to the kind of democratic communities - in which we all long to live.”*

This series will provide participants with a basic background in the Tribes program. The philosophy and strategies of Tribes can be implemented in a variety of ways at all levels - elementary, middle and high school.

We are hoping this introductory session will excite and encourage participants to enrol in the in-depth basic training course.

Teachers using this approach in their classrooms spend far less time managing inappropriate behaviour and more time facilitating learning. Remaining module dates will be decided with facilitator.
