

**Big Ideas + Math concepts + Indigenous Ways of Learning +
Nature + Curricular Competencies + Core Competencies**

=

Concept Studio

What is it?

A place for building connections to place, culture and community

A place for student centered learning that is socially constructed and collaborative

How does it work?

In response to provocations or story, students build individual understanding of a maths concept through the use of:

- Natural materials
- The local environment
- Manipulatives
- Loose parts
- Art materials

Where can it happen?

- Outside - playground or in the neighbourhood
- In your classroom
- In a separate space
- ????
